SKILLS

PROGRAMMING
HTML • CSS • Javascript
Node JS • PHP •

FRAMEWORK AND LIBRARIES
ReactJS • Laravel • bootstrap

CMS PLATFORM
Drupal

DATABASES
MySQL • MongoDB

VERSION CONTROL
Git • Github

DEVELOPMENT TOOLS
VS Code • NPM • Composer

CURRENTLY LEARNING
Tailwind CSS

ACTIVITIES

May 2019
Participated in the event - Debugging in
"Virtual Reality Application" State Level
Intercollegiate Students meet organized
by the Department of CA IT.

EXPERIENCE

EMBARK | WEB DEVELOPER
Jun 2022 - Present | Madurai, India
BACKEND DEVEOPMENT
- Developed and maintained **RESTful APIs** using Laravel and Node.js, supporting robust backend services for seamless frontend consumption.
- Developed secure **authentication systems** using Laravel and Node.js, including user registration, login, and **role-based** access control.
- Optimized backend performance by refining **database queries** and implementing **caching strategies**.

FRONTEND DEVEOPMENT
- Leveraged React.js to create highly interactive, **responsive**, and **reusable UI components**, enhancing overall user engagement.
- Used **Redux** for effective **state management**, ensuring a consistent and predictable data flow across the application.
- Seamlessly connected React.js components with backend services via **RESTful APIs**, enabling efficient communication and **data handling**.

PROJECTS

MAGIC ALUMNI | BACKEND DEVELOPER
Dec 2024 – Jan 2025
Developed a robust backend system using Node.js, Express, and MongoDB, supporting seamless data management for a frontend Flutter app. Additionally, implemented an admin panel, enabling efficient content updates and service management. This project delivered a scalable and user-friendly solution, enhancing the overall user experience for administrators and end-users alike.

MADURAI MARKET | WEB DEVELOPER
Link: **maduraimarket.com**
Dec 2023 – May 2024
This innovative web application is designed to simplify and enhance the daily life by offering a hassle-free subscription service for a variety of dairy products. Flexible subscription plans - daily, weekly, or monthly - tailored to your consumption preferences.

HOUSE OF PANEER | WEB DEVELOPER
Link: **houseofpaneer.com**
Mar 2024 – May 2024
The website functions primarily as an informational hub where users can explore different paneer dishes, learn about their nutritional benefits, and stay updated on new additions to the menu.

GRACE ASSOCIATES | WEB DEVELOPER
Link: **graceassociate.com**
Nov 2024 – Dec 2024
Developed a fully responsive CMS website that integrates services from three different websites into a unified platform using React.js. This freelance project features a seamless and user-friendly interface, enabling efficient service management, dynamic content updates, and a cohesive online experience for end-users.
