PROFESSIONAL SUMMARY

Full-stack MERN/PERN developer with 3.5 years of experience building scalable web applications. Experienced in designing RESTful APIs, developing responsive user interfaces, integrating third-party services including AI/LLM APIs (Claude and Voyage AI), and delivering reliable, production-ready applications in agile environments.

TECHNICAL SKILLS

- Languages** : JavaScript, SQL
- Frontend** : HTML5, CSS3, React.js, Next.js, Redux, Vite, Bootstrap, Tailwind CSS
- Backend** : Node.js, Express.js, RESTful APIs
- Databases** : PostgreSQL, MongoDB, MySQL
- AI/LLM** : Claude API, Voyage AI, AI API Integration
- Tools** : Git, GitHub, VS Code, Postman, NPM
- Deployment** : VPS, PM2, Nginx

EXPERIENCE

- Full Stack Developer** | SaraS Web Solutions March 2025 – Present
 - Developed scalable **RESTful APIs** using Node.js and Express.js with MongoDB and PostgreSQL.
 - Implemented secure authentication and authorization using **JWT** and **bcrypt**.
 - Built responsive frontend applications using **React.js** and integrated them with backend services.
 - Integrated **Claude AI** and **Voyage AI** to develop AI-powered chatbot features for a SaaS application.
 - Collaborated with the team to deliver production-ready features, bug fixes, and performance improvements.
- Junior Web Developer** | Embark Interactive June 2022 – March 2025
 - Developed and maintained web applications using **Node.js**, **React.js**, and **Next.js**.
 - Built and integrated RESTful APIs for frontend and backend communication.
 - Developed and customized websites using **Drupal CMS** based on client requirements.

EDUCATION

- Thiagarajar college **BCA - Bachelor of Computer Application** | CGPA: 3.3/5.0 2017 - 2020

PROJECTS

- AI Chatbot SaaS** | React.js, Node.js, Express.js, PostgreSQL, Claude API, Voyage AI, Web Speech API Jun 2026 – Present
 - Developed a multi-user AI chatbot SaaS using the MERN/PERN stack with secure authentication and conversation management.
 - Integrated **Claude AI** for intelligent conversational responses and **Voyage AI** for semantic embeddings and context retrieval.
 - Implemented **voice chat** capabilities using speech recognition and text-to-speech for hands-free interaction.
 - Built scalable backend APIs for chat sessions, conversation history, and AI request handling.
- Nadi Bahrain** | React.js, Node.js, Express.js, MongoDB, Socket.io, Nodemailer, REST APIs Oct 2025 – May 2026
 - Developed the admin panel using **React.js** and integrated it with backend APIs built using **Node.js** and **Express.js**.
 - Implemented role-based authentication and permission management for secure admin access.
 - Integrated **Socket.io** for real-time updates and **Firestore Cloud Messaging (FCM)** for push notifications.
 - Implemented email notifications and live service request tracking.
- UrTripo Aviation** | React.js, Node.js, Express.js, MongoDB, Redux, PM2, Nginx Sep 2025 – Oct 2025
 - Built an aviation booking platform using the MERN stack for helicopter and aircraft joy rides.
 - Implemented customer authentication, PNR generation, and admin booking management.
 - Integrated secure payments, real-time slot availability, and automated email notifications.
- JK Dry Fruits** | Next.js, Node.js, MongoDB, Redux, REST APIs Jun 2025 – Aug 2025
 - Developed a wholesale eCommerce platform using **Next.js** and **Node.js**.
 - Implemented product management, authentication, shopping cart, and secure payment integration.
 - Built a responsive interface with inventory management and optimized application performance.
